GitHub Portfolio: https://castroolympias.github.io/My-New-Portfolio/

Education:

- High School Graduate
- Currently attending coding boot camp at the University of Utah
- Critical thinking with a deep fascination for reality, even the not so obvious, hidden world, with a curiosity to understand why and how

14 plus years of experience in International freight logistics

- Skills
  - Excel (non-VBA) but I doubt that's hard as I'm on my way with Full Stack Web Development at the UofU
  - Is abstract thinking a skill? Maybes it's an intellectual skill or ability with a refusal to quit thinking from as many angles as possible before one decides there's nothing more to understand
  - It seems I have a natural tendency towards design, features and functions of the of the excel tools I've created, like I ware kinds of hats. The user, the designer and the developer.

- Last 7 years in Ocean and Air Import
  - Working with customs brokers
  - Airlines and steam ship lines
  - Dispatching with truckers for deliveries
  - Accounting/Billing
  - Tracking vessels and containers inland to delivery

- Dangerous goods certified

- # 5 Years prior I worked in Air Export
  - IATA FIATA certified
  - Dangerous goods certified
  - Booked with Airlines
  - Filed export declarations
  - Quoting charges to customers

- # 2 Years prior, I operated the whole warehouse
  - Loading, unload trucks
  - Document incoming shipments, weights, dimensions
